Your career
already
started!

By choosing a degree programme, you have already started your career.

Every subsequent step you take; choosing a minor, a work placement or a Master's programme, is a relevant step forward.

Involve the Career Officer in your next step.

Marie Kross MA MSc Career Officer

“A career path is seldom (at least, not in my experience) a straight line. Most of the time it’s a winding road – and that’s good.”

Degrees

For instance: I started with a Bachelor in Theatre Studies and I minor in Journalism. After an internship at the Marketing Department of a theatre, I got a Master's in Text and Communication (UvA) and went to Antwerp for a Master's in Cultural Management (UA).

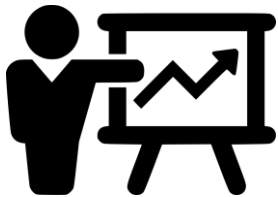

Extra curricular events

During my studies I did lots of extra curricular events, like being a student mentor and writing for the student magazine. I fulfilled positions in cultural councils (like HF Young) and registered as a freelance communication professional to gain work experience and build my network.

Work experience

I worked at various health and cultural organizations including De Nederlandse Filmacademie, Holland Festival, OLVG and Dutch National Opera & Ballet. I hired and trained a lot of (young) professionals and coached many interns. As a Career Officer for the Faculty of Humanities I am delighted to use my experience and network to help students paving their career paths.”
